# Weber pool products, the best combination for a perfect finish!

## Weber Marbelite®

Trust the original Marbelite® by Weber, integrally coloured marble plaster. Suitable for plastering new pools or re-plastering existing pools.

### + Features & benefits

- Integrally coloured (available in 4 colours)
  - Suitable for shower cubicles
  - Can be applied to gunite or hand-packed concrete pool shells
  - Easy to mix with water on-site
  - Produces a fine finish
- Coverage is approximately 1m<sup>2</sup> per bag

### Weber Epox Easy

- A dual component epoxy grout & adhesive, easy to mix & apply, also provides chemical resistance, toughness and flexibility.
- Available in 5 colours.

### Weber Mosaic-Fix

- A cement-based adhesive and grout for installing all types of mosaic tiles.

### Weber Bond-It

- A ready to use latex-based additive, which enhances the bond strength, flexibility and water resistance of the adhesive/grout when used as a total water replacement in the mix.

## Weber Pool Paint

A cement-based, integrally coloured waterproof finish, specifically formulated for revamping marble plastered pools.

### + Features & benefits

- Integrally coloured (available in 3 colours)
  - Easy to mix on-site
  - Applied by paintbrush & roller
  - Same day application for great results
- Coverage is approximately 20 to 25m<sup>2</sup> per 15kg pack (2 coats)

# For a build, renovation or refresh, Weber has the pool product for you.

**The original Weber Marbelite®** is suitable for plastering new pools or re-plastering existing pools.

A complete range of mosaic tile fixing and additives for a strong, waterproof chemical resistant bond and a perfect finish.

**Weber Pool Paint** is specifically formulated for revamping faded marble plastered pools.
